

FLOOR SCALES

SPF4400

SPF4400 floor scales are solid basic scales, which are easy to install on the floor or into a pit. The platform cover is made of 5 mm steel and the height of the feet can be adjusted from 109 mm to 115 mm.

The platform is equipped with four stainless steel load cells. The load cells and the box have IP68 protection. A cable of 5 m to the weight indicator is included in the delivery.

The floor scales can be verified (class III, 3000e) for commercial transactions together with approved weight indicators.
